

SHENZHEN LILUTONG TECHNOLOGY INDUSTRY CO.,LTD

History

- * LLT was found in **2001**. After over ten years development, LLT had many subsidiaries & associate companies and sales agents.

沿街透视图

New factory

The new factory with 30000m² in Qingxi Dongguan is buliding and will be completed in October 2019.

LLT has been continuously making development of various fields.

Such as security system, fire production, electric power, telecommunications, transportation, education, finance industry, new energy resources, petrochemical industry, electromobile industry, mechanical equipment, network technology, intelligent management, industrial automation, LED lighting industry and mechanical system of elevator industry.

公司简介

- Established in year 2001
- Wires and cables R&D and manufacturing (especially in **Fire rated**, **Security** and **EV** cable))
- Annual revenue: 200 million RMB
- 200 employees
- Location: Pinghu town Longgang District, Shenzhen city, Guangdong province, China
- Certificate: ISO9001, ISO14001, LPCB, CCC, UL, VDE, CE...
- Manufacturing base (Pinghu): 15000m²
- New base (Qingxi) : First period in 2016 - 35000 m²,
- second period --15000 m²

公司简介

- 2005 Oct: Acquired CCC certification of BV/RV,BVR series products
- 2006 July : Acquired ISO9001:2005 quality control system certification ;
- 2009 July: Upgraded as ISO9001: 2008 version
- 2008 March : Acquired American UL certification
- 2009 August : Acquired CCC certification of AV/AVR,AVVR,RVVP,RVV Series products
- 2010 March : Acquired CCC certification of 60227 IEC 71f TVVB Elevator cable
- 2015 April : Acquired German VDE certification of PVC Power cable
- 2015 Sept : Acquired German VDE certification of Rubber Power cable
- 2016 Dec : Operated on LPCB certification of Fire Resistant cable
- 2017 April: Acquired LPCB certification of Fire Resistant cable

Products

* LLT is a manufacturer specializing in

LPCB Fire rated cable

Coaxial cable

CCTV cable

Control cable

Network cable

Speaker cable

Rubber cable

Telephone cable

Power cable

Alarm cable

Optical fiber cable

EV energy cables

High flexibility towline cable.....

LLT is a comprehensive company with high ability of research & development, production, sales and service.

Production Equipment

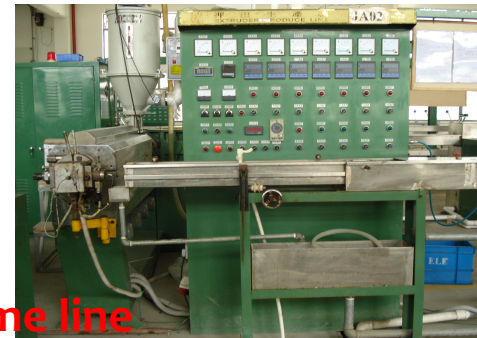

Copper stranding machine

Braiding machine

Wire outcome line

Single cantilever winch

Outer jacket outcome line

Wrapping machine

Terminal crimping machine

Gas stripping machine

Gas stripping machine

Vertical forming machine

Testing machines

插头弯曲测试机

低温冷绕试验机

换气式老化机

恒温水槽

电子天平

切片机试验装置

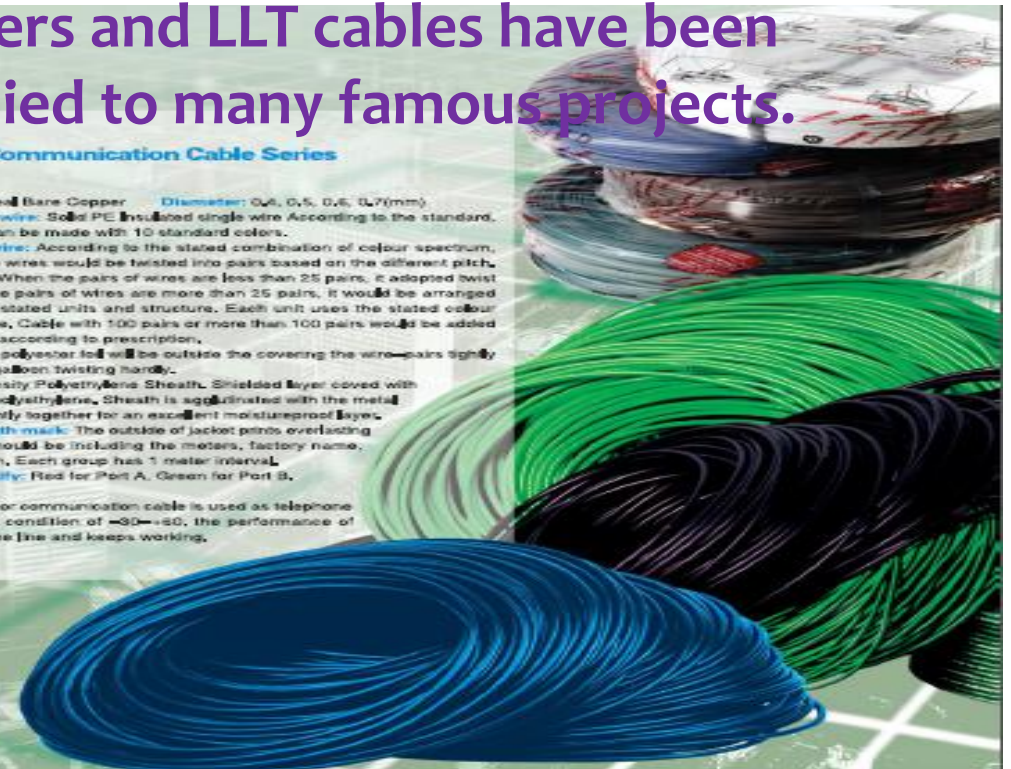

Production Capability

LLT makes one of the greatest contribution of manufacturing wires and cables in Southern China. The advanced manufacturing equipment makes it possible that daily production output exceeds 600,000 meters and LLT cables have been applied to many famous projects.

② Indoor Communication Cable Series

Structure:
Conductor: Anneal Bare Copper **Diameter:** 0.4, 0.5, 0.6, 0.7(mm)
Insulated single wire: Solid PE Insulated single wire According to the standard, Insulated wires can be made with 10 standard colors.
Insulated pair wire: According to the stated combination of colour spectrum, 2 insulated single wires would be twisted into pairs based on the different pitch.
Wire Structure: When the pairs of wires are less than 25 pairs, it adopted twist layered. When the pairs of wires are more than 25 pairs, it would be arranged according to the stated units and structure. Each unit uses the stated colour spectrum bandage. Cable with 100 pairs or more than 100 pairs would be added spare wire-pairs according to prescription.
Wires twisting: A polyester foil will be outside the covering the wire-pairs tightly with a polyester gasket twisting hand.
Sheath: Low Density Polyethylene Sheath. Shielded layer covered with low consistency polyethylene. Sheath is agglutinated with the metal shielded layer tightly together for an excellent moistureproof layer.
Identify and length mark: The outside of jacket prints everlasting marks. Length should be including the meters, factory name, year, specification. Each group has 1 meter interval.
Cable Port Identify: Red for Port A, Green for Port B.
Application: Indoor communication cable is used as telephone cable. Under the condition of -30~+50, the performance of the cable holds the line and keeps working.

Certificates

了解利路通 Know about LLT

資質認證 Certificates & Test Reports

CCC 認證 (Certificate No):
A0219864 A0292884 A0110445
UL 認證 (Certificate No): E309471
CE 認證 (Certificate No): LV004347
ISO9001:2000 認證 (Certificate No):
0050601083R0M

權威認證 是客户信心的保證，是企業營銷的通行證
Authoritative certificates are the guarantee to keep our client's confidence, and the passport of enterprise's marketing.

利路通產品通過CCC強制認證，公司通過ISO9001:2000國際認證，CE認證，UL認證，SGS環保認證，並擁有直接進出口權，產品全球運送國家有關部門檢驗并獲得相關證書。

LLT has passed the ISO9001:2000 international certificate and earn the relevant certificates such as CCC certificate, CE certificate, UL certificate, SGS certificate etc. LLT has the direct import and export authority.
